

### **Community Food Distribution Assistant**

The Community Food Distribution Assistant will fulfill roles within 3 of Bounty & Soul's food access programs, giving the Member well-rounded experience of food access, food security and food & health equity.

**The Healthy Opportunities Pilot (HOP)** is a program through North Carolina Health and Human Services that enables eligible Managed Medicaid enrollees to receive healthy food boxes through Bounty & Soul. The Community Food Distribution Assistant will support the HOP program through shopping, food preparation, and food delivery to community members enrolled in the program.

**The Benevolent Box Program** is part of Bounty & Soul's Produce to the People™ initiative, whereby healthy food boxes are delivered to the homes of individuals and families who experience barriers to accessing our regular community markets. The Community Food Distribution Assistant will support the BB service by conducting quarterly communications with BB enrollees, assessing their needs; as well as enrolling new community members who request the service.

**The Food Distribution Volunteer Hub** is the site where all donated food comes into Bounty & Soul, to be culled, sorted, and prepared for market—mostly by volunteers. The Community Food Distribution Assistant will direct and support Bounty & Soul volunteers in these activities at the Volunteer Hub, paying attention especially to Benevolence Boxes.
